REFERENCES TO THE INSURANCE CONTRACT ACT

ARTICLE 5. THE INSURANCE CONTRACT

5.1 Documentation and Formalization of the Insurance Contract and Duty to provide information.

Prior to the conclusion of the contract, the Policyholder is under the OBLIGATION to declare to the Insurer, in accordance with the questionnaire submitted by the latter, all of the circumstances known to the Insured that might have an influence on the Insurer’s assessment of the risk.

Bearing the foregoing obligation in mind, the present Policy has been arranged on the basis of the declarations made by the Policyholder and/or by the Insured on the Subscription Document or Insurance Application Form, on the Health Questionnaire, and on any other means for the transmission of information admitted by Cigna and accepted by the Insured, expressly including electronic and telephonic contracting. The said declarations constitute the fundamental obligation of the Policyholder and/or the Insured regarding the declaration of the risk, especially the Health Questionnaire, and they therefore constitute an essential element of the contract and the basis for its formalization.

The Policyholder has the duty and the obligation to sign each and every one of the documents making up the Policy and to deliver a signed copy thereof to the Insurer.

The insurance shall become effective after the Policy is signed and the corresponding Premium paid.

Should the contents of the Policy differ from the insurance proposal or from the clauses agreed, the Policyholder may require the Insurer to remedy the divergence identified within the term of one month counted from the delivery of the Policy. Once this term has elapsed without any complaint having been made, the parties shall abide by the provisions contained in the Policy.

Once the contract has been formalized and during the course of the same, the Policyholder and/or the Insured must notify the Insurer, as promptly as possible, of any alteration in the factors and circumstances declared at the moment the Policy was contracted that might aggravate the risk and are of such a nature that, had they been known to the latter at the moment the contract was concluded, it would not have entered into it or would have done so on more onerous conditions.

In no case shall any variation in the circumstances regarding the Insured's health status be considered an aggravation of the risk and therefore need not be notified to the Insurer.

5.2 Conditions for Inclusion in the insurance

It will not be possible for persons aged 64 or over to subscribe this insurance, or such other age, if any, specified in the Particular or Special Conditions.

The Insurer and the Policyholder may agree on inclusion conditions in addition to those appearing in the Particular Conditions.

The Insurer reserves the right to reject the inclusion in the insurance or to limit or exclude any of the cover therein on the basis of the declarations made in the Health Questionnaire or any other document furnished for the purpose and of the medical examination, if any.

For the purposes of the present contract, any insured party remaining in Spanish territory for more than 183 consecutive days will be considered to be Resident in Spain.

5.3 Duration of the Contract

The insurance cover is stipulated for the period of time foreseen in the Particular Conditions and, on its expiry, it will be deemed to have been automatically extended for the term of one year and so on thereafter on the expiry of the annual period under way.

Both the Policyholder and the Insurer may oppose the extension of the contract by means of written notification sent to the other party at least one month in advance of the conclusion of the cover in the initial period or the annual extension when the party opposing the extension is the Policyholder, and two months when it is the Insurer.

5.4 Subrogation

The Insurer, once the Healthcare Assistance referred to in the present contract has been provided, shall be able to exercise any and all rights and actions that, in connection with the Illness or Accident, might correspond to the Insured against the persons responsible for the same or the public bodies or other entities that may have a legal or regulatory obligation to cover the same pursuant to any compulsory or the voluntary insurance up to the limit of the cost for the Healthcare

Assistance provided.

This subrogation right shall not be exercised against the spouse of the Insured nor against any other relatives to the third degree of consanguinity, any adoptive parent or adopted child living with the Insured in question. This exception shall have no effect if the liability stems from criminal intent, or if the responsibility is covered under an insurance contract. In this latter case, the subrogation shall be limited in scope in accordance with the terms of the said contract.

In the event where the Insurer and the Insured act jointly against the third party with liability, any collection obtained will be distributed among them in proportion to their respective interest.

5.5 Limitation of legal action

Any lawsuits arising out of the present contract shall be time-barred after five years have elapsed from the moment when they could have been exercised.

5.6 Communications

All communications will be addressed by the Policyholder/ Insured to the Insurer at its registered office, or at any of its offices or another remote electronic address expressly designated by the Insurer for certain communications, provided that this is expressly stated.

Communications of the Insurer to the Policyholder and, if any, to the Insured, shall be made at the address of the latter indicated in the policy and/or email address or other remote electronic means, whenever this is compatible with the content and format of the communication.

Communications effected by an insurance broker or brokerage office to the Insurer on behalf of the Policyholder or the Insured shall have the same effects as if they had been made by the Policyholder in person, except as otherwise indicated by the same. In all cases, the express consent of the Policyholder will be required for the subscription of a new contract or to amend or rescind the insurance contract in force.

Nonetheless, communications made by the Policyholder or the Insured to the insurance broker or brokerage office are not deemed to have been made to the Insurer until they have been received by the latter.

Communications made by the Policyholder or Insured to an insurance agent of the Insurer shall have the same effects as if they had been made directly to the latter.

The Policyholder and/or the Insured authorize the Insurer, if the latter considers it necessary, to record the telephone conversations held in connection with the present Policy and to use the same in its quality assurance processes, if

any, and as evidence for any dispute that may arise between the parties, in all cases preserving the confidentiality of the conversations held.

Those communications made in writing that have been refused, those sent by registered mail and not collected from the Post Office, and those that do not reach their destination because of a change of address that has not been indisputably notified to the Insurer shall have identical effects as those communications received.

ARTICLE 6. DUTIES AND OBLIGATIONS OF THE INSURED

6.1 Premiums.

The Policyholder shall pay the Insurer the Premium in the manner and on the dates specified in the Particular Conditions to this Policy. If payment by instalments is arranged for the annual Premium, the Policyholder shall be obliged to pay the first instalment at the moment the contract is concluded. Subsequent Premiums must be paid on their corresponding maturities. Payment by instalments of the Premium shall not release the Policyholder from the obligation to pay the full amount of the Premium.

If the first Premium is not paid due to the fault of the Policyholder, or if the Sole Premium is not paid on its maturity, the Insurer is entitled to resolve the contract or to demand payment of the Premium due through forced recovery on the basis of the Policy. If the Premium has not been paid before the Claim arises, the Insurer will be released from its obligation.

In the event of any non-payment of one of the subsequent Premiums, or of any of the instalments if payment of the Premium by instalments has been arranged, then cover by the Insurer shall be suspended one month after the date of maturity. If the Insurer has not claimed payment within the six months following the maturity of the Premium, the contract will be understood to have been extinguished. In any case, when the contract is suspended, the Insurer may only demand payment of the Premium for the period under way and it shall be entitled to the fraction of premium for the time during which the cover was suspended.

If the contract has not been resolved or extinguished pursuant to the preceding paragraphs, the cover shall once more be effective from midnight on the date the Policyholder paid the Premium (or the pending instalment(s)).

The Insurer may alter the Premiums annually on the basis of the technical and actuarial calculations necessary to determine the impact of the following concepts on the financial and actuarial scheme of the insurance: the increase in the cost of the healthcare services, the increased

frequency of the benefits covered by the Policy, the increase in the loss rate, the incorporation into the cover guaranteed of technological innovations emerging or being used after the perfection of the contract, or other events with similar consequences.

The Policyholder may opt between the extension of the insurance contract with the new Premiums established by the Insurer for the following annual period, or its extinction on the maturity of the annual period under way. In this case, the Policyholder must notify the Insurer of the decision not to extend the contract giving at least one month's notice prior to the date of the Policy's maturity.

6.2 Collaboration in processing.

In the event of a Claim covered by this insurance contract, the Policyholder and/or the Insured will be obliged to co-operate with the Insurer to reduce all the consequences of the same, as well as to communicate immediately to the Insurer the occurrence, circumstances and possible consequences of the Claim.

The Insured, any relatives or successors in title must allow the visit of the Insurer's Physician, as well as any verification or conformation that the Insurer may consider necessary for the verification of the Claim, authorizing the delivery to the Insurer of any and all documents related to the cover under the Policy that may be requested.

All complementary information requested by the Insurer to verify the Claim must be sent by the Policyholder or the Insured within the maximum term of sixty (60) days from the occurrence of the Claim.

Together with notification of the Claim, the Policyholder or the Insured must send the Insurer the medical report specifying the diagnosis and nature of the Illness when so required by the Insurer. Documents will be submitted in the manner and with the contents requested by the Insurer.

In addition, the Insured must faithfully observe all the prescriptions of the Physician in charge of curing the condition and must give the Insurer all kinds of information about the circumstances or consequences of the Claim.

Any failure to comply with these obligations will give rise to the possibility for the Insurer to claim back any damages suffered. Should any criminal intent or serious blame attach to the Policyholder and/or Insured, the Insurer shall be released from its obligation to provide compensation.

6.3 Taxes and Surcharges.

All taxes and surcharges that may legally be passed on and must be paid in connection with this contract, whether at present or in future, shall be for the account of the Policyholder or the Insured.

ARTICLE 7. OBLIGATIONS OF THE INSURER

7.1 Provision of Cover.

The healthcare assistance covered by the policy is provided through healthcare professionals and Hospitals in Spain included in the Contracted Medical Services.

The Insured will be required to present identification in advance as the person covered by the insurance. For this purpose, the Policyholder will be provided, at the start of the cover, with the corresponding to cards accrediting the status of an insured party and the Insured must present this card to the professional together with a National ID card or legally equivalent document. The information about the Contracted Medical Services will be updated from time to time on the Cigna web page. The Policyholder will be jointly and severally responsible for any expenses incurred by the Insured for services rendered by the Contracted Medical Services through the use of a Cigna card corresponding to an extinguished insurance arrangement. All this is without prejudice to the liabilities that the Insured might incur in the event of fraudulent use of the card.

The Insurer will not reimburse the fees of professionals and other Contracted Medical Services paid directly by the Insured, nor the medical expenses and fees arising out of the Healthcare Assistance provided by professionals and Hospitals not included in the Contracted Medical Services, except in the cases expressly reflected in the policy.

For the purposes of the insurance, the Claim will be deemed to have been notified when the Insured goes to the Contracted Medical Services or requests a service.

The Insured may freely choose and use the services of the healthcare professional and/or Medical Centre or Hospital considered to be most appropriate among the Medical Staff of Cigna, in accordance with the levels of cover contracted in the Policy. The right of freedom of choice of the professional and Medical Centre and/or Hospital, the lack of any organizational hierarchy on the part of the Insurer and the independence of criterion, as well as the existence of professional secrecy, are all circumstances that, each one individually, necessarily presuppose the absence of any kind of liability on the part of the Insurer for the acts performed by the same.

In order to exercise this right, Policyholders shall send the corresponding notification addressed to the Insurer, using any lasting medium accessible to the Insurer.
